THE Future Summit of Financial and Real Economy

Kap Europa

The **FRANKFURT FINANCE & FUTURE SUMMIT** takes place in an urban, contemporary setting that fosters openness, movement, and creativity—a setting that sets the pace.

- Dynamic stage formats
- Lounge areas for direct interaction
- Lighting and sound concepts that create atmosphere

The Summit features a program design that deliberately sets itself apart from “traditional conference formats.”

- Keynotes that get straight to the point
- Insights with maximum relevance
- Speed panels that take a clear stance in 45 minutes
- Mixed panels foster genuine dialogue rather than just echoing industry views
- Interactive sessions that not only convey knowledge but

The **FRANKFURT FINANCE & FUTURE SUMMIT** creates relevance; here, the future comes to life. The result: clarity, momentum, and dialogues that unleash new ideas and enable their implementation.

THE FUTURE. SIMPLY. MAKE IT HAPPEN.

for doers.

FRANKFURT FINANCE & FUTURE SUMMIT 2026

„Get stronger, Europe“

The **FRANKFURT FINANCE & FUTURE SUMMIT** is the place where future is shaped, direction is set, and new energy for decision-making is gained. In a world that will continue to face profound upheavals in 2026, the Summit—with this year’s theme “Get Stronger, Europe”—brings together all the issues that will determine stability, growth, and competitiveness in the coming years:

- **Geoeconomics**

How do we ensure Europe’s ability to act in a fragmented world?

- **Sourcing & Ressourcing in Tech & Defense**

How do we unlock the potential of technological leaps without losing sight of the human element?

- **People in Corporate and Cultural Transformation**

How do we lead organizations through times when speed, uncertainty, and complexity are the new normal?

The Summit creates a space where decision-makers can find answers and gain new perspectives—through encounters with the

most influential figures from business, politics, media, sports, and culture. These are individuals who inspire, challenge, shake things up, and encourage.

In 2025, nearly 1,000 participants from Germany and EMEA gathered in Frankfurt over two days. They engaged in lively discussions, networked, and developed concrete solutions in masterclasses.

New customer opportunities and leads emerge here organically,

not by chance. Through its unique combination of thematic relevance, the presence of decision-makers, and topic-based synergies, the Summit offers concrete opportunities to attract new customers and partners. It is an environment where trust grows, where shared challenges bring people together—and where initial contacts evolve into lasting business relationships.

A true game-changer.

A think tank for doers.
